

Dr. Fleischer's

# CLAIRVOYANCE

The only (!) original, manufactured by us since 1969! If you see someone else selling it with different containers it's an unauthorized copy!

A spectator is handed a bag with 5 plastic containers. While you are turned away or outside the room the spectator takes one box from the bag, opens it and puts an item like a bill or a piece of paper inside. The closed container is replaced in the bag. Now you take the bag, dig into it and take one box out of it.

It's the spectator's one!

Many routines possible: Use the boxes with five different coins inside!

Or put coloured ribbons in the boxes.
