

Flipp Flapp

An attractive large square with gleaming glitter is shown and the magician gazes through it. The empty square measures approx. 6.5" x 6.5" and is 5" high. Seconds later the square transforms into a large tube,

13" high and 2.8" x 2.8" wide. Numerous silks, sponge balls, sponge eggs, a flag-chain or a large multicolored streamer can now be produced from the tube! Flipp-Flapp is ideal for any parlour or stage act! You'll say it's a splendid prop and, with the ideas given in the instruction, highly versatile!

Each Flipp-Flapp is individually produced by a master craftsman from Germany. Quality you can trust on! Made of fine quality linen in bookbinder hand work and the best materials, this is a prop that you can use for years and years.

A physical impossibility!
